Natrelle® 410 Highly Cohesive Anatomically Shaped Silicone-Filled Breast Implants

Important Safety Information

Natrelle® 410 Highly Cohesive Anatomically Shaped Silicone-Filled Breast Implants are indicated for breast augmentation in females at least 22 years old. Breast augmentation includes primary breast augmentation to increase breast size, as well as revision surgery to correct or improve the result of a breast augmentation surgery.

Natrelle® 410 Breast Implants are not for women with active infection, existing cancer or pre-cancer of the breast who have not received adequate treatment for those conditions, or women who are currently pregnant or nursing. Complications may include reoperation, rupture, capsular contracture, implant malposition, and asymmetry. For full safety information, please visit www.natrelle.com or call Allergan Product Support at 1-800-433-8871. Natrelle® 410 Silicone-Filled Breast Implants are available by prescription only.
